

Rescue of the Arena-Bar

The undersigned district councilors and district councilors of NEOS and the SPÖ Margareten stand for the district representation meeting on September 20, 2022 according to § 24 Abs.1 GO-BV following

Resolution proposal

The district representation Margareten speaks in favor of the fact that the local in the Margaretenstraße 117 - known as the Arena-Bar - as a venue remains.

Justification

The Arena-Bar was founded in 1959 as a variety local by Helene and Mendel Wanne. The small bar has in the sixties years a legendary reputation as a night local with an ambitious variety program. She is, together with her owner, as a secret sign of Margareten.

In the last decades the Arena Bar has also become a play location for young cultural initiatives, as the stage and the audience room of the local (ca. 50 seats) is an ideal size for first stage projects of young cultural initiatives.

Also many district culture projects in Margareten have the Arena Bar for their performances rented. The local is in the center of Margareten, has an unchangeable atmosphere and was until recently managed by Helene Wanne and her son.

Helene Wanne died at the beginning of this year at over ninety years of age. The future of the Arena Bar is now no longer secured. With the closure of the bar Margareten loses an important play location for district culture projects.

The district representation speaks with this resolution in favor of the fact that from the side of the district a continuation of the local as a venue is supported and in the given possibilities fully supported.
